RE: American Consolidated Mine  
ACT/047/019- *M/045/019*  
Tooele County, Utah

Dear Mr. Moeller:

The Division of Oil, Gas and Mining has noted recent newspaper articles concerning contracts that American Consolidated Mining Company has entered into, stating that mining would commence immediately.

This is to remind you that the permit which American Consolidated Mining has with the Division is only good for mining of 500 tons of ore and disturbing less than two acres. Mining activity beyond those limits may not occur until a complete Mining and Reclamation Plan (MRP) has been approved by the Division, and the required reclamation surety to cover the costs of reclamation has been approved by the Board of Oil, Gas and Mining and posted with the Division.

The Division has reviewed the initial MRP submitted by American Consolidated Mining and responded with a list of deficiencies (review dated August 5, 1983) still to be addressed before the permitting process can proceed. Your earliest response to this document will facilitate this end. Please feel free to contact me or Susan Linner of my staff if you wish to arrange a meeting with the technical staff to discuss the additional information requirements. Your cooperation in this matter is appreciated.

Sincerely,

JAMES W. SMITH, JR.  
COORDINATOR OF MINED  
LAND DEVELOPMENT
